

Lab Management Community of Practice's strong and diverse membership

Over **130 academic staff** from eleven divisions joined in the first seven months. Collectively, over 62 units participated.

School of Medicine and Public Health

42 academic staff from
22 departments from
Anesthesiology to Urology
participated

College of Agriculture and Life Sciences

23 academic staff from

9 Departments:

Agronomy

Animal Sciences

Bacteriology

Biochemistry

Center for Dairy Research

Dairy Sciences

Horticulture

Nutritional Sciences

Urology

Office of the Vice Chancellor for Research and Graduate Education

22 academic staff from

9 Centers:

- Administration
- Biotechnology
- Institute on Aging
- Morgridge Institute for Research
- Primate Research Center
- Research Animal Resources
- Space Sciences & Engineering
- Waisman
- Wisconsin Institute for Discovery

College of Letters and Sciences

12 academic staff from

5 Departments:

Center for Healthy Minds

Chemistry

Interdisciplinary Research Programs

Psychology

Zoology

School of Engineering

8 academic staff from

7 Departments:

Administration

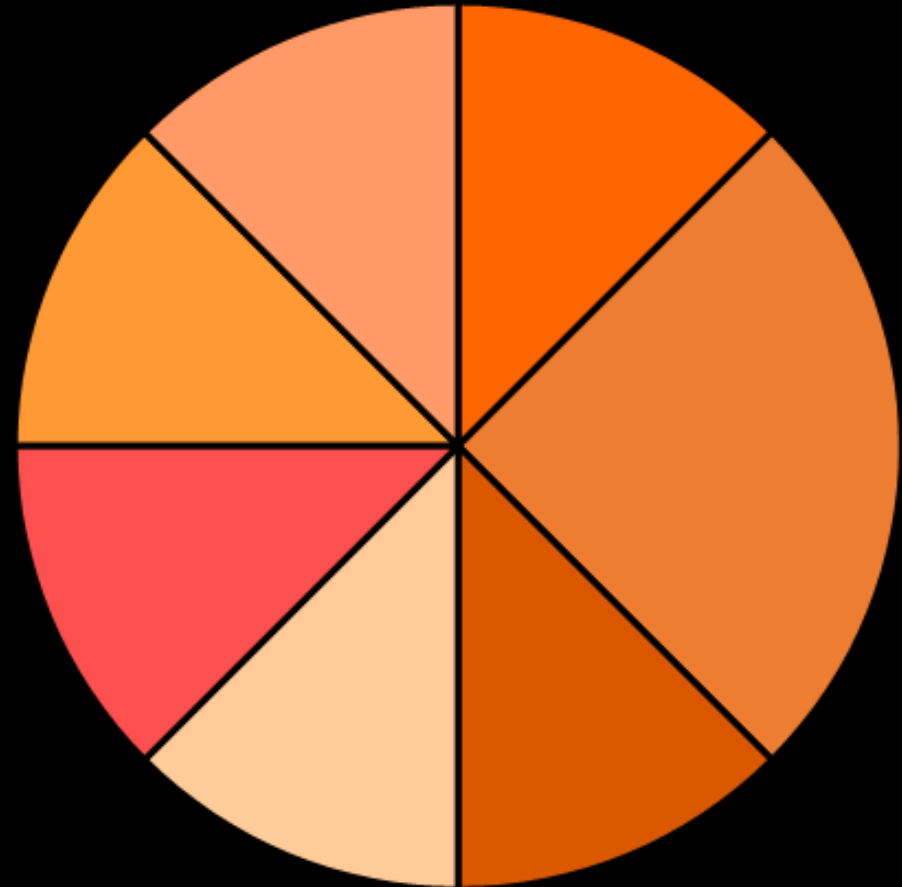

Biomedical Engineering

Chemical Engineering

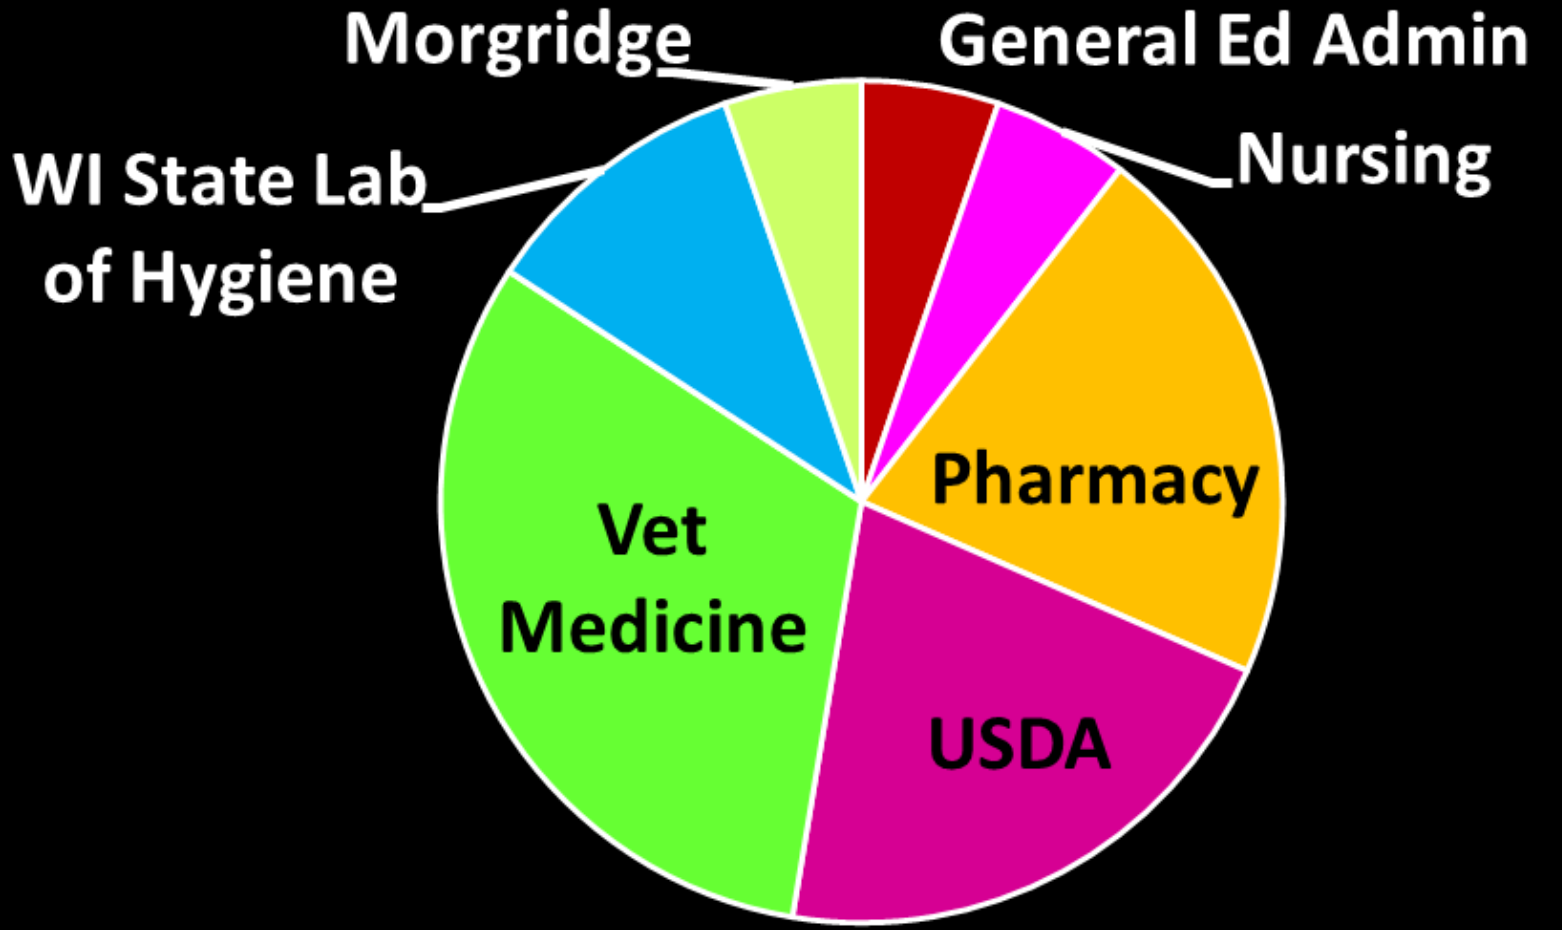

Civil & Environmental Engineering

Environmental Chemistry

WIS Power Electronics

Many more campus members from diverse areas joined

19 academic staff
and growing!

All major lab academic staff title families represented

Our members hold
30 different titles
across all major title families
and bring a full spectrum of
experiences

Kick-off event: Apr 14, 2017

Approx. 45 academic staff attended

Small groups identified what they cared about and shared their top issues with the large group.

Topics were distilled into six themes.

Each person casted three votes to prioritize as a community:

1. **Networking 26%**
2. **Finding and sharing materials and equipment 23%**
3. **Managing people 21%**
4. Data management 13%
5. Finding process-related resources 9%
6. Onboarding and training 8%

Top three themes

- ✓ **Networking 26%**

All future events would preserve time for networking

- ✓ **Finding and sharing materials and equipment 23%**

This tool was launched summer 2017 and is a great start

<https://resources.research.wisc.edu/>

- ✓ **Managing people 21%**

The Campus Supervisors Network joined for the **Nov** event

Data management 16%

Organization software tools presented at the **June** event

Finding process-related resources 11%

Bucky Submit and conversations about managing compliance were discussed at the **Sept** event

Onboarding and training 10%

Four events after the spring kick-off

Month	Attendance	Topic
June	14	Organizational software tools
Sept	30	Compliance & public access policy
Oct	16	Purchasing best practices
Nov	15	Supervision

Building relationships and tapping local expertise

Four lab managers presented on six organizational software tools

Ryan Schryver from Ebling Library, BuckySubmit

Janet Bresnahan & Sarah Martin, Purchasing

Campus Supervisors Network, Rich Gassen & David Kuester

OUR PURPOSE

Community driven best practices for lab management professionals at UW-Madison. Communities of practice serve many purposes. Collaborate with colleagues who share similar challenges. Share your expertise. Join us to discuss ways to optimize lab and core success. This community is for anyone who is in a lab management role including research labs, core labs and instructional labs.
